

# Advanced Placement Science Course Application

Hello Prospective AP Physics C: Mechanics student,

I am pleased that you are considering taking AP Physics C: Mechanics next year, it is an interesting and challenging class that will prepare you well for future science courses and study. The AP Physics course has a requirement that the student has passed AP calculus or be concurrently enrolled in AP Calculus when taking AP Physics. It is also required that the student have taken and passed the Physics class. The AP Physics class is oriented to the AP Physics C Mechanics exam which takes place in May. We start work on motion, forces, energy, momentum and other topics that will be covered on the AP exam in late November. This content calendar allows students who are taking AP Calculus to get experience with derivatives and integrals. The pace of the AP Physics course is rather heavy with double chapter assignments typical because we have to cover a wide range of content. If you enjoy physics and have an interest in a future career in science or engineering AP Physics C: Mechanics is an excellent course to consider.

Regards,

Dr. C. Owen J. Griffiths

AP Physics Instructor  
Lake Oswego High School

# Advanced Placement Science Course Application

Students wishing to enroll in the Advanced Placement (AP) Physics course are required to submit the following application. The application will be used to establish your ranking and determine class enrollment.

Complete the front of this form and put your name and the name of your science teacher on the back. **Dr. Griffiths will obtain your teacher's recommendation.** Return the application to Dr. Griffiths by March 1st, 2019.

Applicant Name: \_\_\_\_\_ **Current Grade (circle one):** 10 11

The prerequisites for this class are: successful completion of Pre-calculus and Physics (no D or F grades).

**Check this box if you have met these requirements**

**1. List your grades earned for Precalculus, Physics.**

Course	Grade: Semester 1/Semester 2
Physics	/
Pre-Calculus	/
List your current math class and your semester 1 grade	

**2. Please respond to the following statements/question:**

	Strongly Disagree	Strongly Agree
I am a responsible student who turns homework and other assignments in on time.	1 2 3 4 5 6 7 8 9 10	
I am willing to spend the extra time that AP Classes require	1 2 3 4 5 6 7 8 9 10	
I am willing to work toward and take the AP Exam	1 2 3 4 5 6 7 8 9 10
